Principals Message

Dear Parents and Guardians,

It is hard to believe that the term is almost half way over! Our staff and students have been working hard and doing some fabulous learning in both classrooms. I have been enjoying working with both the pre-primary students and the senior room students on their Biological Sciences units this term. The Junior room have been learning about what living things need to grow, the 2,3,4 students have been learning about living, non-living and once living things and the 5,6 students have been learning about plant and animal adaptations. The Junior room students planted bean seeds back in Week 2 and have been watching their progress over the last three weeks. Lilah's seedling is very happy and healthy!

I have also been enjoying getting my 'craft' on during whole-school art on a Wednesday afternoon. The kids have spent the last two weeks on their current pieces, which are looking amazing! Once they are all complete, we will display them in the office so everyone that visits the school can enjoy them.

Next week we will host the YSSSA Cross Country event here at Moorine Rock Primary School. The first official event will commence at 10.30am and we would love to see lots of our parents here just prior to cheer the kids along,

I will be out of the school on Monday and Thursday next week attending meetings and professional development sessions in Perth. I will be at school on Tuesday, Wednesday and Friday, and will also be monitoring my emails if you need to get in touch with me for any reason.

Have a terrific fortnight everyone, Mrs Boehme

PIE WARMER LUNCHES

To assist the school in providing a safe environment, please consider the contents of your child's lunch box and avoid providing products that contain nuts.

Please note, icy Poles will no longer be sold during Term 2 and 3.

FROM OUR JUNIOR ROOM WITH MS BURTON

In Mathematics the pre-primary has been learning about Measurement. Learning smaller, taller, wider etc. We practise using cubes to measure objects. The kindy has been learning about the number 7 and moving onto recognising number 8.

FROM OUR SENIOR ROOM WITH MR ELLIS

Hello All from the Senior Room

The term is well underway now and the calendar ahead is filling up with activities. We are practicing for cross country every morning and have started to create our assembly item. Below are some pictures from week 3's Design Technology, where students had to design, build and test a bridge made from newspapers.

FROM OUR SENIOR ROOM WITH MR ELLIS

Every day in maths we complete a 5 minute, 100 question, maths drill in one of the four operations (+ - x ÷). I include a multiplication example here so you can test your skills. The students have 5 minutes to do as many as they can. All correct is pretty good, under four minutes excellent, but this year's record is just over 3 minutes.
